Full working rights in South Australia — Subclass 491 (Skilled Work Regional Provisional Visa) | Fluent in English

PROFESSIONAL SUMMARY

Learning and Development professional specialising in digital learning, with 10+ years of experience designing and delivering instructional content for large, multicultural organisations across aviation and healthcare. Skilled across the full learning lifecycle — from instructional design and curriculum development through to LMS administration, SCORM packaging, and learning analytics reporting. Brings a genuine multimedia and technical edge, combining Adobe Creative Cloud production skills, hands-on web development, and structured use of AI tools to accelerate content development.

CORE SKILLS

LMS & Analytics: Axonify LMS administration, SCORM 1.2 packaging & upload, Power BI dashboard reporting, learning analytics and completion/engagement tracking

Instructional Design & Authoring: ADDIE methodology, Articulate Storyline & Rise, curriculum and course design, competency-based assessment design, storyboarding

Facilitation & Delivery: Training delivery at scale (150+ sessions annually), stakeholder engagement across cross-functional teams, coaching and mentoring

Multimedia Production: Adobe Creative Cloud (Photoshop, Illustrator, InDesign, Premiere Pro, After Effects), video production, graphic design, interactive touchscreen builds

Digital & AI: HTML, CSS, JavaScript, Git/GitHub, structured prompt engineering with ChatGPT, Gemini and Claude for content development

CAREER EXPERIENCE

Multimedia & Instructional Designer — Independent Consultant

2020 – 2025

- Designed and developed workbooks, e-learning modules, and video content for a range of independent clients, managing projects end-to-end from concept through delivery.
- Used structured prompt engineering (ChatGPT, Gemini, Claude) to design learning content end-to-end — course structure, video scripts, scenario-based and branching content, and assessment questions — accelerating first-draft development.
- Produced visual assets for training materials using AI image generation (Midjourney), and used AI to summarise SME interviews and learner feedback into structured course content.
- Built a simple productivity app (reminder/note-taking tool) as hands-on practice applying AI-assisted development to real tools.

Instructional Designer Specialist — PureHealth, Dubai

Oct 2022 – Oct 2023

- Created e-learning compliance courses from scratch for a 26,000-employee healthcare organisation — for example Fire Safety and QDMS Corrective and Preventive Action — adapting standard content to lab- and clinical-specific regulatory requirements. (Evidence: Portfolio)
- Collaborated on the implementation of the Axonify LMS platform — vendor coordination, system configuration, and organisation-wide rollout — while personally packaging SCORM 1.2 content out of Articulate Storyline and administering uploads directly in Axonify.
- Built 3 Power BI dashboards across 5 report types (Participation, Topic Progress, Knowledge Summary, Certification, User Summary) to track learning completion and engagement, contributing to a 20% increase in learning engagement and a 10% improvement in project success rate.
- Ran regular SME meetings to shape course content, kept lesson plans and training materials current, and designed training PowerPoint decks and graphic design assets for internal marketing communications.
- Managed high-volume training and scheduling data, and carried out photo and video shoots to produce supporting training media.
- Designed and distributed the annual learning calendar communication; used structured ChatGPT prompting to shape Fire Safety course architecture, media selection, and assessment design.

Digital Learning Specialist — Emirates Airlines, Dubai

Nov 2015 – Sep 2020

- Led design and delivery of digital and classroom training for KIS Application and Cabin Systems programmes, alongside Crew Portal onboarding, CSA, and Return-to-Work training — 150+ sessions annually to cohorts of 20–25.
- Managed and mentored 2 Part-Time Trainers, conducting 5+ formal observations with written feedback using the BOOST model; guided one PTT through a successful promotion to Training Officer.
- Built 4 interactive touchscreen learning interfaces (First, Business, Economy Class, Cabin Systems) using Metro UI CSS, Bootstrap, jQuery (including a custom-authored plugin), and Swiper.js, delivered within a 2-week sprint. (Evidence: Portfolio)
- Self-taught VBA and built the Starttr roster automation tool, reducing a manual 2-day process to 10 minutes — manager-confirmed. (Evidence: Portfolio)
- Produced and directed the Business Class Vignettes training video series with external Cabin Crew Managers, incorporated into new Business Class training and recognised with a Silver Najm Award. (Evidence: Portfolio)

Digital Learning Officer — Emirates Airlines, Dubai

Sep 2012 – Nov 2015

- Delivered Ab Initio crew onboarding training via the Crew Portal, CSA training, and Return-to-Work training, attached to the Visual Media and Communications team.
- Converted the Emirates Cuisine training booklet into an interactive PDF within 5 working days, receiving written commendation from the Training Manager.
- Designed and managed a multi-station service review matrix, and pioneered an electronic evaluation system that eliminated paper-based course evaluations.

Corporate Communications Designer — Lamprell (Oil & Gas), Ras Al Khaimah

Oct 2009 – Aug 2012

- Designed internal corporate communications and publications, applying brand and style standards across print and digital formats.

Senior Training Administrator, IT/Admin Support — Emirates Airlines, Dubai

Oct 2003 – Oct 2009

- Provided IT and administrative support to the training function — workbook design, graduation video editing, and graduation ceremony management — beginning a 16-year continuous Emirates tenure.

EDUCATION

Bachelor of Science, Computer Information Systems — Champlain College, Vermont, USA

Assessed by SA Government Skilled & Business Migration as comparable to an Australian Bachelor Degree (educational-level assessment).
